Gross Description:

1. The specimen is received fresh for frozen section, labeled "Delphian node" and consists of one piece of tan-pink soft tissue measuring 0.9 x 0.3 x 0.2 cm. The specimen is entirely submitted for frozen section.

Summary of sections:

FSC - frozen section control

2. The specimen is received fresh for frozen section, labeled "right paratracheal lymph node" and consists of two lymph nodes measuring 0.9 x 0.4 x 0.2 cm and 0.5 x 0.3 x 0.2 cm. The specimen is entirely submitted for frozen section.

Summary of sections:

FSC - frozen section control

3. The specimen is received fresh for frozen section, labeled "Pre-tracheal tissue - midline" and consists of one piece of tan-pink soft tissue measuring 1.5 x 1.0 x 0.6 cm. The specimen is entirely submitted for frozen section.

Summary of sections:

FSC - frozen section control

4. The specimen is received fresh for frozen section, labeled "rule out right lower parathyroid gland" and consists of one piece of tan-pink soft tissue measuring 0.3 x 0.2 x 0.1 cm. The specimen is entirely submitted for frozen section.

Summary of sections:

FSC - frozen section control

5. The specimen is received fresh, labeled "total thymectomy, stitch marks right lobe" and consists of a thyroid weighing 36 g. The right lobe measures 6 x 4 x 2 cm, the left lobe measures 4 x 2 x 1.5 cm and the isthmus measures 1.3 x 0.5 x 0.3 cm. The external surface is covered by a thin fibrous capsule. The posterior surface of the specimen is inked black, and the anterior is inked blue. Sectioning reveals a well circumscribed nodule measuring 1.8 x 1.5 x 1.0 cm. The remaining thyroid parenchyma is red tan and beefy. Representative sections of the specimen are submitted for TPS, and a photograph has been taken. The remaining tissue is serially sectioned and representatively submitted.

Summary of sections:

N - nodule

RL - right lobe

LL - left lobe

IS - isthmus

6. The specimen is received fresh labeled, "right paratracheal tissue", and consists of multiple irregular pieces of tan soft tissue measuring 1.0 x 0.5 x 0.3 cm aggregate. Entirely submitted.
